 Special Meet The Filmmaker Edition!

Enzian Theater is proud to present a series bridging the gap between science and art. Each film will be preceded by a fascinating presentation from a notable expert from the world of science, technology, mathematics, and medicine.

A story of mystery and redemption. *Rocks in my Pockets* is based on true events involving five women of animator Signe Baumann's family, including herself, and their battles with depression and suicide. It raises questions of how much family genetics determine who we are and if it is possible to outsmart one's own DNA. The film is packed with visual metaphors, surreal images, and a twisted sense of humor. It is an animated tale full of art, women, strange daring stories, Latvian accents, history, nature, adventure, and more.

MEET THE FILMMAKER!

As an extra special treat director Signe Baumann will be in attendance for the film, presentation, and Q&A.

The film will also be preceded by a presentation from Martin Klapheke MD, Assistant Dean of Medical Education and Professor of Psychiatry at the University of Central

Florida College of Medicine, who will discuss the role of genetics, life experiences, and epigenetics in mental health, and the myths and stigma of illness.

Special Meet the Filmmaker Edition! Writer/Director David Mickey Evans will be in attendance!

Co-starring Denis Leary and James Earl Jones, THE SANDLOT is a wonderful and heartwarming coming-of-age tale that entertains both kids and adults. It's the 1960s, and soon-to-be fifth grader Scotty Smalls is the new kid in town. An avid baseball fan, Scotty is befriended by a baseball-loving group of kids who spend an idyllic summer playing our national pastime. Things are going great until Scotty's dad's prized baseball, autographed by Babe Ruth, lands in a junkyard guarded by a ferocious dog. THE SANDLOT is alive with summertime spirit and has been called the "FIELD OF DREAMS for tweens."
